LYON, France, November 17, 2021 -- EDAP TMS SA (Nasdaq: EDAP) (the "Company"), a global leader in robotic energy-based therapies, announced today unaudited financial results for the third quarter of 2021 and provided an update on strategic and operational developments.

Marc Oczachowski, EDAP's Chairman and Chief Executive Officer, said: "We are pleased with the continued strong growth in U.S. HIFU treatment volumes, which increased 58% year-to-date over the comparable period in 2020. This is a very positive sign as it reflects the growing adoption of focal therapy by urologists. Regarding our third quarter revenue, the COVID-19 pandemic continued to weigh on hospital capital spending, and this was further impacted by several machine placements that were delayed until the early days of the fourth quarter due to logistical challenges that were exacerbated by the resurgence of the pandemic in many parts of the world. Our leading indicators are strong, we are well financed, and I believe we are well positioned to exit the year with renewed momentum."
